

Winter School 2026 - GenAI for Non-Tech

Agentic AI for Everyone

No technical background,
No coding required

Winter School 2026 - Agentic AI

Understand the next evolution of AI

Discover how agentic AI systems work, how they differ from standard LLM tools, and where they can create real value for teams and organizations

What you'll learn

- What agentic AI systems are and why they represent a new paradigm
- Real-world examples of autonomous agents and how they work
- How agents plan, make decisions, and pursue goals
- Build, evaluate, and responsibly apply your own simple AI agent

Winter School 2026 - Agentic AI

Learn, connect, and explore agentic AI together

1-day, in-person training

27 January 2026

Xebia Office, Amsterdam

Generative AI for Non-Tech

Join Agentic AI Training

or full GenAI for Non-Tech Learning Journey with 30% discount

Perfect for managers, product owners, HR, marketing, and domain experts who want to use AI – not build it.
